

Maxiseal

Individually Ventilated Caging System

Maxiseal Racking

MAXISEAL FLEXIBLE RACKING OPTIONS

Our modular racking system offers complete flexibility to meet any laboratory design. The fully mobile racks with fitted AMUs are available in a wide variety of formats, ranging from 10 to 114 cages. Further racks can be added at any time, and the system allows racks to be 'daisy chained' for even more flexibility

112 cage double sided rack

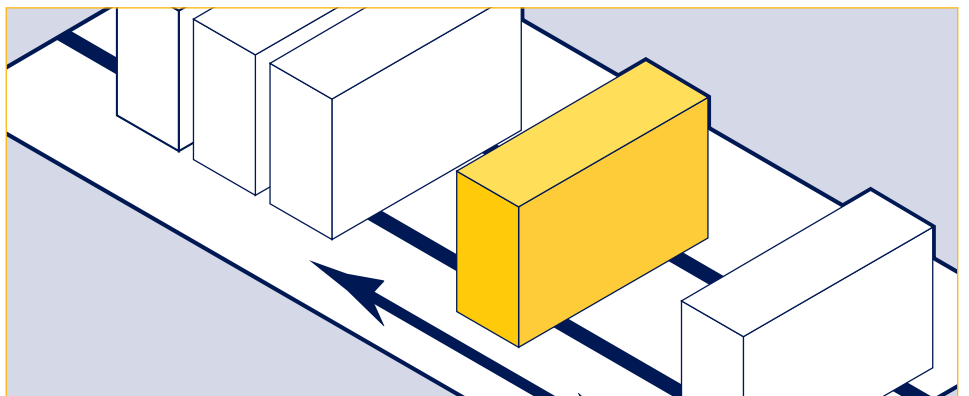

56 cage single sided rack and AMU

10 cage rat rack and AMU

31 cage mini system provides the perfect solution for transferring animals from one area to another. The AMU can also be used as a standby for other cage/rack systems

Bespoke library racking system is the ultimate space saver, allowing you to house a great diversity of animals in even the most limited areas – at least 30% more than you might expect. The systems flexibility ensures that it can be adapted for even the most awkward layouts. Racks are on fixed runners, so rack moving and retrieval is smooth, swift and simple.
